Welcome to LASANI SURGICAL Instruments

Since our inception, our unwavering dedication has centered around providing professionals worldwide with premium instruments at optimal value. Specializing in the distribution of Orthodontics, General Dental, Podiatry, and Surgical instruments

LASANI SURGICAL distinguishes itself through superior quality and a commitment to surpassing industry benchmarks. Our instruments embody excellence, crafted through a synthesis of advanced technology, precision-driven CNC machines, and the expertise of skilled mechanical engineers. From the initial point of contact through customer service, our focus spans the entire spectrum of operations, consistently aiming to build enduring relationships and exceed expectations.

At LASANI SURGICAL, you are not merely a customer; you are our esteemed partner, benefiting from our unwavering commitment to professionalism and elegance in every facet of our service. We are grateful and thank you for partnering with LASANI SURGICAL. We truly value you and your business and look

Sincerely,

KABEER HUSAIN

LASANI SURGICAL INSTRUMENTS

OUR MISSION

Mission

Lasani Surgical Instruments Mission

It is our mission to lead the global industry by providing the highest quality instruments at the best value through dependable, personalized service, on-time delivery, and continuous improvement of our instruments and processes. LASANI SURGICAL stands behind every instrument with a lifetime guarantee.

Vision

Lasani Surgical Instruments Vision

Our vision is to be a leading medical instruments supplying company in the world, expanding our services to reach additional peoples. We work to be trusted by customers.

Lasani Surgical Instruments Manufacturing Process

Here we will shortly brief you about the process of manufacturing

Tradition in Line with Innovation

Small masterpieces made from steel, which also meet the highest professional standards and prove themselves through their function, aesthetics, ergonomics and long-term precision cutting ability.

In addition, the product properties such as hardness, robustness and corrosion resistance significantly determine the performance, reliability and durability of the instruments. From the very first look, excellent craftsmanship and eye catching appearance of our instruments produces the right impression. Using of only the best German stainless steel and precise finishing processes insures that our instruments are made to last and highly appreciated by beauty professionals all over the world

WE BRING THEM TO LIFE

NAIL NIPPERS

LASANI SURGICAL Nail nippers are manufactured using high-pressure forging of layers made of 100% surgical-grade stainless steel, capable of performing under normal or expected conditions and achieving Rockwell HRC 48–50. Our nippers are designed for professionals for durability, sharp cutting, and long-lasting

The nail nippers are formed with a box-joint method which prevents lateral play or staggering and retains cutting-edge alignment for a lifetime. Both blades are

Our nail nippers' curved jaws are designed to allow a clean cut and provide a slightly curved nail shape without ripping or tearing. Blades touch evenly when closed, and both blades are exactly aligned to cut hard nails efficiently. Double springs are inserted to allow smooth and precise floating movement

The handles have a round tension to give you the highest possible grip which allows the hand to have maximum control.

Our highly redefined passivation process protects instruments against corrosion due to repeated sterilization. Responding to customer's needs, it features gently curved, palm-friendly, easy-to-grip ergonomically designed grooved finished handles which gives optimal comfort, performance and expresses the ultimate in functional beauty.

LASANI SURGICAL Nail nippers come in various forms such as nail cutters, head cutters, and ingrown nail cutters. Jaw styles include curved, straight, flat, ultra-fine, and pointed to maximize comfort and user-

All **LASANI SURGICAL** nippers have springs assembled with a screw that can

Available In Two Handles

CUTICLE PUSHERS

LASANI SURGICAL Cuticle Pushers are designed to safely remove dead skin from the nail bed without causing damage or scratches to the nail. They allow cuticles to be gently pushed back, helping nails grow stronger and healthier.

LASANI SURGICAL Cuticle Pushers come in a wide variety of forms and models. These include small to medium scoops, ingrown nail lifters, pushers with a knife edge, flat-edge pushers, extractors, arrow-point tips, and pterygium removers. LASANI SURGICAL tools are manufactured in diverse model ranges to ensure comfort and user-friendliness for their intended purposes.

Our highly redefined passivation process protects instruments against corrosion due to repeated sterilization. Responding to customer's needs, our pushers feature many types of edges, palm-friendly, easy-to-grip ergonomically designed finishes on the handles which gives optimal comfort, performance and expresses the ultimate in functional beauty. Our non-slip grooved texture on the handles allow a comfortable grip while the tool is in use.

EXCAVATORS, CURETTES AND PROBES

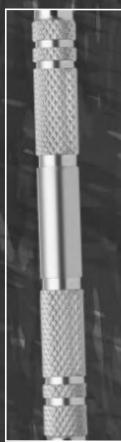

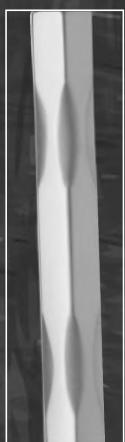

LASANI SURGICAL Excavators are designed to safely remove dead skin from the side walls of ingrown nails.

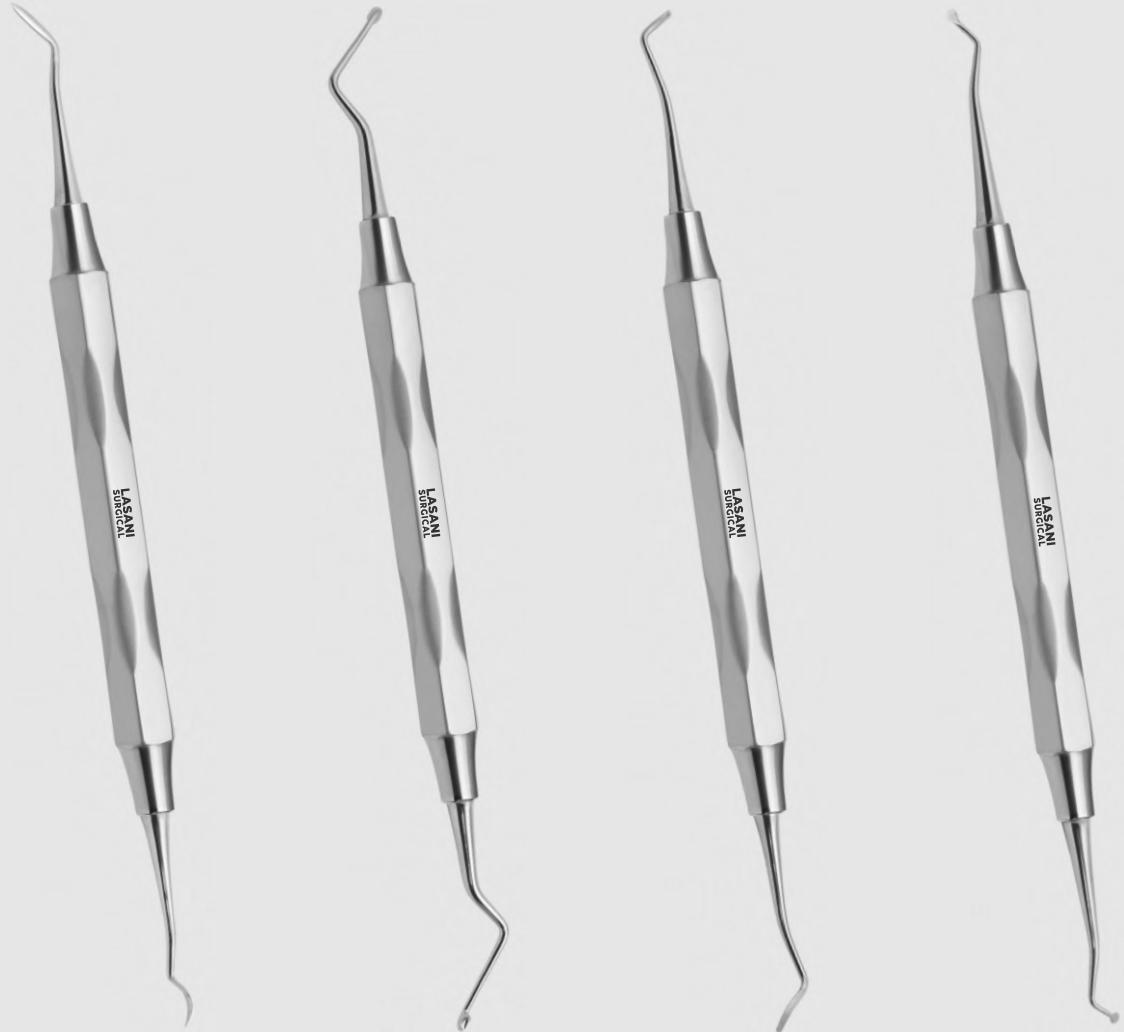

LASANI SURGICAL Curettes are designed to clean under fingernails and toenails and are also used to remove cuticle from the nail plate.

LASANI SURGICAL Excavators and Curettes are available in a wide variety of forms and model ranges. Excavators come in single- or double-sided designs, with round edges and various sizes. Our curettes include Volkman curettes, curettes without holes, oval-shaped curettes, and more. LASANI SURGICAL tools are manufactured in diverse model ranges to ensure comfort and user-friendliness for their intended purposes.

Our highly redefined passivation process protects instruments against corrosion due to repeated sterilization. Responding to customer's needs, our excavators and curettes feature many types of edges, palm-friendly, easy-to-grip ergonomically designed finishes on the handles which gives optimal comfort, performance and expresses the ultimate in functional beauty. Our non-slip grooved texture on the handles allow a comfortable grip while the tool is in use.

INGROWN NAIL FILES

Nothing feels as satisfying as a good nail file, and LASANI SURGICAL high-tech nail files far surpass expectations. Manufactured in many unique shapes, usage methods, and surfaces, these exquisitely crafted files feature one abrasive side for precise filing and one smoother side for finishing touches. When held in hand, you'll notice a finger dip that creates a comfortable, ergonomic grip.

LASANI SURGICAL Nail Files come in a wide variety of forms and model ranges. These include diamond dust files, finger and toenail files, glass nail files, ingrown nail files, straight-head fine-cut files, black nail files, angled nail files, ultra-fine nail files, and many more. All are designed to maximize comfort and ensure user-friendliness for their intended purposes.

EYEBROW & EYELASH TWEEZERS

Lasani Surgical Tweezers are manufactured using high-pressure forging of layers made of 100% surgical-grade stainless steel, which is capable of performing under normal or expected conditions. Our tweezers are designed for professionals to ensure durability and long-lasting ease of tension. The quality of the steel has a crucial influence on the overall quality of the tweezers.

Lasani Surgical Tweezers come in various forms with a diverse model range. This includes slanted tweezers, narrow slanted tweezers, straight claw tweezers, wide-handle tweezers, electrolysis tweezers in various sizes, body waxing tweezers, eyelash pointed angled tweezers, ultra-sharp pointed curved tweezers, angled needle-nose tweezers, eyelash extension tweezers, and many more. Lasani Surgical tools are manufactured in diverse model ranges to provide comfort and user-friendly performance for their intended purpose

Our highly redefined passivation process protects instruments against corrosion due to repeated sterilization. Responding to customer's needs, our tweezers feature many types of edges, palm-friendly, easy-to-grip ergonomically designed finishes on the handles which gives optimal comfort, performance and expresses the ultimate in functional beauty. Our tweezer joints are perfectly jointed on the handles to allow a comfortable grip while the tool is in use and allow a decent amount of tension while in use.

NAIL, CUTICLE AND EYEBROW SCISSORS

Lasani Surgical Scissors are designed to safely remove hair from the body and/or cuticles from the nail bed without causing damage or scratches to the nail. They allow precise cuticle trimming, helping promote stronger and healthier nail growth.

Lasani Surgical Scissors come in various forms with a diverse range of models. This includes stork scissors, curved nail scissors, toenail scissors, fiberglass scissors, ultra-fine scissors, mustache scissors, safety scissors, fine and curved pointed cuticle scissors, and more. Lasani Surgical tools are manufactured in diverse model ranges to ensure comfort and user-friendly performance for their intended purpose.

Our highly redefined passivation process protects instruments against corrosion due to repeated sterilization. Responding to customer's needs, our scissors feature many types of blades, palm-friendly, easy-to-grip ergonomically designed finishes on the rings which gives optimal comfort, performance and expresses the ultimate in functional beauty. Our sand finished texture on the handles allow a comfortable grip while the tool is in use.

STAINLESS STEEL FOOT FILE

Looking to invest in a foot file for long-term use without worrying about corrosion? Lasani Surgical currently offers two highly demanded stainless-steel foot files. Our Lasani Surgical foot file is designed to accommodate coarse and medium grit adhesive stickers, making it ideal for use on multiple clients within a short span of time. The file can be purchased with coarse or medium grit stick-and-peel sandpapers, available in packs of 50 each, allowing up to 50 customers to be serviced in a spa or academy using just one tool. Another highly popular option is the Lasani Surgical solid stainless-steel foot file, manufactured using high-pressure forging of layered 100% surgical-grade stainless steel. This file is capable of performing under normal or expected professional conditions and is designed for durability and long-lasting ease of use. The quality of the steel plays a crucial role in ensuring the superior performance and longevity of the foot file.

Our highly redefined passivation process protects instruments against corrosion due to repeated sterilization. Responding to customer's needs, our stainless steel file features palm-friendly, easy-to-grip ergonomically designed finishes on the handles which gives optimal comfort, performance and expresses the ultimate in functional beauty. This file can be auto claved, reused and is durable for longevity for thousands of uses without any fear of wear or damage,

WOODEN FOOT FILE

Lasani Surgical is very proud of its top-selling environmentally friendly wooden foot file. It is designed to provide a comfortable grip during use, featuring tough and durable filing surfaces for effective foot care. The file consists of two sides: one side for removing calluses and the other for smoothing and buffing the skin. The construction of our wooden foot file undergoes approximately 50 manufacturing processes, making it waterproof and easily washable without fear of damage. Our wooden files are fully sanitizable, helping resist bacteria and other microbes on the soles of the feet. Advanced manufacturing technology ensures durability, with multiple processes reinforcing the longevity of the file. The rounded edges provide added comfort for users, whether for personal home use or professional spa treatments. When used dry, the file effectively removes calluses; when used wet, it helps buff and smooth the skin.
